

CONFERENCE WITH THE UTES.

The Place of Meeting Surrounded by 1,200 Indians—Exciting Scene.

LOS PINOS AGENCY, Col., June 6.—On Saturday the Ute Commissioners met in conference with Head Chief Sapovonah of the Utes and his Sub-Chiefs Shavano, Plash, Alash, and others. There were at least 1,200 Utes about the agency. The scenes within Agent Berry's office were exciting, dramatic, and perilous in the extreme. Commissioners Mears, Russell, and McMorris were present. Each Indian was heavily armed, and when the talk began the building was surrounded by the Utes, who occupied every available spot to listen to the conference. The Utes were told by the Commissioners through an interpreter, that the Commission had come to the agency to carry out the terms of the treaty entered into last year; that it was the wish and intention of the Government to accomplish the terms of this treaty as expeditiously as possible, and to remove the Utes from their reservation. Several leading sub-chiefs, exclaimed loudly: "There never was a treaty made, neither this one under consideration nor any other, and he boldly demands that we leave our country." It was inferred that every Indian present had agreed. The chiefs were told that they could select five Utes to accompany the Commission to the new reservation. Should they not agree to do so, the Commissioners would proceed without them, locate their reservation, and remove the agency thereon. Five Utes, including Head Chief Sapovonah, were chosen by Agent Berry, and the report was made across the table that day. Shavano was very bold in his talk. He claimed that he and Chepeta, Ouray's widow, owned the Uncompahgre Valley. The chiefs were given a general audience, and were then asked to successfully accomplish the mission of the Commissioners. The presence of the military kept the Utes in submission, and it was very clear that had the reinforcements been about the Utes, who had agreed to go to a new reservation, Agent Berry's influence with them prevented more exciting scenes, and they yielded, after a manner, to the inevitable. Even now, however, many Utes and their few Indians are hovering about. They may return for another talk, but it will be refused.

MIXING GLUCOSE WITH SUGAR.

Havemeyer & Elder's Suit Against the American Sugar Refinery of Chicago.

CHICAGO, June 7.—An important suit was begun in the United States Circuit Court by Havemeyer & Elder, sugar refiners of New York, against the American Sugar Refinery of Chicago. The complainants say that they are extensive manufacturers of sugar, and that with the packages they sell is a guarantee that the accompanying package is safe, and that it will not fail in mind of the consumer or other sugar manufacturer. The effect of mixing glucose with brown sugar is to make them lighter, and hence of an apparently higher grade, though really of an inferior quality, and the customer is practised very extensively here. The defendants say, as claimed, are engaged in the business of adulterating sugar, and are guilty of the same offense as the sugar manufacturers, mixing them with glucose and other deleterious substances, and then replacing the mixture in the original packages. The plaintiff claims that the product is carried on clandestinely at 1:00 to 2:00 A.M. Clark street, but the only sign to such place at this place is a small sign which says "SUGAR". The name is not to be found in the City Directory. The complainants say their business will be immediately injured if the practice continues, and that it is a frequent practice, and therefore ask for an injunction to prevent the defendant from mixing, coloring, staining, or poisoning sugar, or any other article of food or material for the purpose of gain or profit, or from selling or offering such mixture or compound for sale.

Fatal Fall Down on Elevator.

CHICAGO, June 7.—A boy named Albert fell down a flight of stairs in an elevator of a cigar warehouse manufacturer this morning, and was killed. He mistook the elevator floor for one leading to another room, and the first warning his companions had was the heavy thud of his body as it fell into the cellar.

Three Men Suffocated in a Mine.

VIRGINIA CITY, Nev., June 7.—Yesterday James Malone, Patrick Hunter, and Gerald Landers employed in a 400-foot level of the Andine mines, were suffocated by gas, supposed to have been generated in some of the abandoned workings of the Consolidated Virginia.
